

Opportunities for Corporations

We are thrilled to announce this **top-tier educational event** at CEM in Warsaw/Poland on **April 24 - 25, 2026**. The ICRS Cadaveric Surgical Skills Course in Warsaw will be a two-day intensive program focusing on joint preservation techniques. The course aims to provide practical experience and enhance surgical skills in these advanced procedures.

We extend this special invitation to innovative companies specializing in cutting-edge technologies for diagnosing, regenerating, repairing, protecting, or rehabilitating joint cartilage surfaces. This is a prime opportunity for you to showcase your advancements.

This exclusive Surgical Skills Course will offer workstations with three surgeons each. In addition, there will be observer spots for physiotherapists and industry associates.
